## Miss Minerva Sparrow

### A CITIZEN OF NOTE DEPARTS

Mattapoisett lost a distinguished citizen when Miss Minerva M. Sparrow of Church Street died at home on May 4th after a week of normal activity. Her end was attributed to a heart condition. Miss Sparrow's 86th birthday would have been May 10th.

A graveside memorial service for committal of her ashes was conducted at the Cushing Cemetery at 5 o'clock on Sunday by the Rev. Donald H. Finley of the Mattapoisett Congregational Church and attended by more than 25 relatives and friends, chief among whom were Dr. and Mrs. Peter Dingman of Middlebury, Connecticut. Mrs. Dingman

Minerva Miller Sparrow was born in Mattapoisett May 10th, 1882, daughter of Walter E. and Mary (Atsatt) Sparrow, Jr. Her grandfather was the well remembered Dr. Walter E. Sparrow who practiced medicine in this area during the last century. Miss Sparrow was a graduate of Mt. Holyoke College and followed the profession of teaching for many years, some of which were spent in the most deprived area of New Orleans, Louisiana. Her field was English. Music and history were objects of her devotion also. She had been a member of the Boston Museum of Fine Arts and Metropolitan Opera Association.

The Mattapoisett Historical Society is planning a suitable memorial in tribute to Miss Sparrow, details of which will follow. Miss Lydia LeB. Walker was ap-

### PUBLIC WORKS HEARING

The Public Works study committee held the first hearing on their proposal on Thursday at Mattapoisett Town Hall. The text of the committee's report and their recommended legislation appeared in the May 1st issue of the Presto Press.

The meeting was opened and chairmaned by Mr. Jarvis Stratton in the absence of Walter Longmore, chairman of the committee. Mr. Berthold Putman of the committee was also unable to attend. Mr. Stratton, Mr. Anton Brockelman and Mr. Frank Pimental were present as members.

Mr. Stratton invited immediate questions from the 25 townspeople who attended.

Mr. Winfield Jenney, water commissioner, expressed his opinion that the proposal change is too serious a step to be under-

taken without the full consent of Mattapoisett voters at the regular town meeting. He expressed the belief that the proposal should be put before the town at that time.

Mr. Stratton pointed out that the 1967 town meeting did consider the idea and did direct the Selectmen to appoint a committee to draft legislation to set up a Public Works Department for Mattapoisett.

Mr. Donald Fleming then stated that the change is so important that the people should have the opportunity to retain or reject certain portions. He said that he saw no reason that it couldn't be adopted as a by-law to allow this selection or rejection.

Mr. David Haley, chairman of the Board of Selectmen, replied that Berthold Putman had advised that the proposal be tailor-made as it requires legislation.

Mr. Stratton added that the committee would check to see if the town has the legal right to adopt this as a by-law in the town meeting rather than through the legislature by referendum.

Mr. Fleming stated that the town could petition the legislature to adopt the measure as voted by the town meeting. He said that there is no control once it is in the hands of the legislature.

Mr. Stratton replied that the committee would ask Mr. Leonard Perry, town counsel, about the legality of going through the town meeting.

Mr. Jenney replied that he had put the question before Mr. Perry. He said that he had inquired if this measure could be held to go into the warrant as an article. He said the "town counsel said yes, it would be just as legal".

Mr. Stratton replied, "we will certainly explore that."

Mr. Haley stated that the Board of Selectmen had no intention of foisting its will upon any citizen.

Mr. Fleming replied that the choice, as it stands, is yea or nay on the entire thing.

Mr. Haley said, "you want the opportunity to amend?"

Mr. Fleming said, "yes".

Mr. Haley replied that there is no intention of adopting the legislation without taking it to the town meeting.

Mr. Stratton said, "can we go into the philosophy of it?"

"How much will it cost the town?" asked Mr. Jenney.

"We believe that there will be considerable savings by more efficient use of equipment," said Mr. Stratton. Mr. Jenney asked, "Whose

salary are you going to cut?" "How can you hire another man, an engineer?" "How do you make a saving by hiring another man?"

Mr. Stratton said that they hoped to gain by eliminating "make work" and by increased efficiency. He broke the manpower down to 13 regular employees and 8 summer employees. He said that the superintendent is to be paid \$10,000 per year, an office clerk \$6,000 per year, a mechanic, \$6,000, a foreman for each department at \$3. per hour, laborers at \$2.50 per hour and summer employees at \$1.50 per hour. The committee estimated a payroll of \$83,500.00 compared with the 1966 figure of \$82,500.00. He said that a 5-member Public Works Commission would actually set the salaries that the committee could only estimate.

## INSURE YOUR WIFE?

What would her loss during the children's early years, without ample assistance, mean to your family's future?

If this is a real problem for you, a small amount of Life Insurance is not the answer.

You need Death Insurance, a low cost type of protection, tailored to your family's dependency period. Big protection when the kids are young that decreases as they become self-sufficient.

When you can obtain \$25,000.00 of protection for as little as 15¢ per day, can you afford not to be protected?

He added the hope that it would wait for the annual Town Meeting.

Mr. Stratton said that the departments would be phased in gradually, that the 5-year period should be a fair test of the system.

"Have you talked with any other town that has Departments of Public Works?" asked Mr. Jenney.

Mr. Haley asked him what part of the Department of Public Works he objected to. Mr. Jenney said that the town isn't big enough, that in every town with such a department, costs have gone up.

Mr. Stratton replied that nobody has figures to establish a cost comparison. Mr. Jenney stated that you can't switch men around as planned because they won't. Mr. Paul Kelley asked, "If all departments are combined then men would work where needed?" When he received an answer of yes, he said, "These departments could work together now and cooperate if they would but they won't."

Mr. Fleming established that the department is scheduled for a 1970 start with 1973 planned full operation with a 2-year test under full operation.

Mr. Haley said that now there is no control over equipment maintenance. Every department purchases for themselves. Eventually, he stated, it is hoped to bring the police and fire departments into purchasing consolidation. "The result," he said, "is efficiency as opposed to the hydra-head-

ed thing we have now." He said that quantity discounts could be had and several bids obtained by a single purchasing agent.

Mr. Fleming said that, as proposed, the superintendent would go on immediate tenure.

Mr. Stratton agreed that this same question had bothered the committee, that "just cause" might be impossible to determine. He took note of a suggestion that a two-year probation period for the superintendent be written as well as a suggestion that "just cause" as reason for dismissal of the superintendent be dropped to be replaced by 4 members of the Board of Public Works voting for dismissal.

Mr. Haley, in summation, said that the Department of Public Works would be entirely separate but under the control of the Board of Selectmen.

He was asked why the Selectmen could not function as the Board of Public Works.

He said, "no, it's too much work!"

Mr. Stratton brought the hearing to a close with the statement that he expected that other hearings would follow.

A group of members of Mattapoisett Junior Grange met at the Grange hall last Wednesday for workshop. The girls started their State sewing projects, the boys their wood projects. They also made Maybaskets that were presented to their mothers last Friday night. Each Junior brought a box lunch and enjoyed eating supper after the workshop.

## LETTER TO THE EDITOR

#### WRITER WANTS TO RETAIN CONTROL OF SCHOOL SYSTEM

There is a movement underway by some individuals to create a regional school system, whereby the towns of Marion, Mattapoisett and Rochester would be re-gionalized from the kindergarten through the high school level.

After a 20-year struggle, which began in 1837, Mattapoisett finally became master of its own affairs by becoming incorporated as a town in 1857. The reasons for separating itself from Rochester those 111 years ago were prompted by the need to consolidate its government in its own village.

The citizens of Mattapoisett, in recent years, realized the need for additional facilities and fulfilled this need by building a second elementary school. It is their right to run and maintain these schools as they see fit. To yield to the regionalization movement would place "home rule" in jeopardy.
